From Washington.

WASHINGTON, Dec. 16. Gilmer 36, scattering 9. Gilmer with-drawn. 8th ballot, Sherman 111. Bo-

weeks ago yesterday, Mason, of Virginia, one of the Democratic candidates for President, for the purpose of cutting under Gov. Candles (tallow union threat has become most intolerably stale. It has nearly ceased to frighten even dough-faces in the North. The idea that the slaveholders would dare to dissolve the Union is ineffably absurd. They could not be kicked out of it. But as ong as the insane threat will bring their Northern lackeys to their knees, it will be used of course.

In the House, the week has been wasted in rant and bluster by the Democratic members, to prevent an organization .-Until a speaker is elected, no other business is in order, by the laws and rules of the House. But in defiance of all order and even deceney, two weeks have been spent in the utmost confusion, and no speaker elected. It requires a majority of all the members to elect. There are about seventy-five regular pro-slavery Adminisration Democrats, a few limber-backed The Republicans, on the meeting of Con- fair demand. gress lacked six of a clear majority over all these odds and ends of parties and factions. But it has been pretty generally understood that enough of the anti-Lecompton Democrats would finally unite with the Republicans to elect Sherman. To prevent this, and in hope of uniting the above-named factions, the Democrats have spent the two weeks in the most outrageous buse of Sherman and the Republicans.

Here, as in the Senate, the most insulting threats of disunion have been poured out from day to day by Southern Demorats. Their Northern accomplices have that he had violated any law, they would sat silently by, and given their countenance have tried and convicted him-seized and to these plotters of treason. At last Vallandigham, of Ohio, perhaps the most death! and for what? Oh! he was "sup- unscrupulous demagogue and servile union speech. According to this gentle- \$4.75. and incomparable Machine is destined to create

THE ADVINT OF THIS 5.2.

and incomparable Machine is destined to create a great and decided change i the public opinion on the subject of chars sewing Machines.

We confidently assert, and can conclusively prove, by a practical demonstration, that this Machine embraces in its construction the best combination of acientific principles to be found in any Seving Machine new before the public, regardless of price!

With so eye quick to detect the deficiencies and imperfections of other Machines, Mr. Moure has sought to remedy them all; and we feel assured a critical examination of this beautiful piece of machine; examination of this beautiful piece of machine; will at once establish it as the only really desirable will at once establish it as the only really desirable. to remedy them all; and we feel assured a critical examination of this beautiful piece of machinery will at once establish it as the only really desirable cheap Machine in the country, and far preferable to any high-priced Machine now sold. It saws directly from two spools—as beught at the store, without rewinding—one above the Machine, and out undermeath, and make the storegest, most cluste and durable skitch made either by hand or machinery. It cannot be ripped though the cloth is cut entirely off every saif luch. The stickly possesses the same clasticity on thin as upon thick goods, thereby making it particularly applicable for articles that require washing and froming. The machinery for feeding the cloth is entirely unlike any other, and us, without doubt, the best ever constructed.

The breaking of needles, a common and expensive fault with most other machines, is entirely remedied in this; with proper cars, one needle will last for months. The entire Machine is simple in construction, and made in every respect perfect and durable. Unlike other Machines, there is no danger of damaging the article sawed by oil, as none is used on top of the Machine. It is also made large enough for every description of work, there being a clear space of sine larkes is longth by four in highly, be-
